In an article published by Tech Crunch, it was alleged that "Xinhua also noted that Bytedance had announced plans to develop a "social credit system" based on its AI capabilities in 2021. It was part of a larger trend for Chinese tech companies to apply AI to social credit scores. For example, Ant Financial's Sesame Credit uses data from one's Alibaba profile to create a credit score for users." This article was published on Tech Crunch. In an article published by The Verge, it was alleged that "A lot on that AI hype has been around China's tech companies, which have been loudly touting their AI capabilities to justify valuations that are 30 to 50 times higher than the next biggest tech firm in the US." This article was published on The Verge. In an article published by Tech Crunch, it was alleged that "Bytedance is also rumored to be working with a variety of Chinese government agencies. In addition to state-owned banks and media companies, Bytedance has partnered with social media sites WeChat and Tencent on its news aggregator Jinri Toutiao, and inked deals with the Ministry of Industry and Information Technology for speech recognition software. Another deal with China's railway ministry is reportedly pending." This article was published on Tech Crunch."

In an article published by Business Insider, it was alleged that "Seven years ago, Chinese tech firm ByteDance launched TikTok to help people make new connections in their everyday lives." It continued by saying that "However, the app has become a global phenomenon, and its popularity in recent years has skyrocketed among underage users." This article was published on Business Insider.", The app has received criticism from users for not creating revenue and posting ads on videos which some see as annoying. The app has also been criticized for allowing children younger than age 13 to create videos. Some have also criticized the app for not using technology that automatically identifies protected material like copyrighted music in auditions of songs from artists like Mika Singh and Sonu Nigam. The company has been criticized for not giving the artists any royalties from these auditions. On September

19, 2021, The Delhi High Court issued a notice to TikTok to respond to a plea of a lawyer seeking its direction to make the platform's administrators take action against their users for allegedly posting obscene videos and pictures.", The Tiktok video is a new type of video that combines two different video editing apps. The first one, TikTok and the second one being Instagram. They are traditional videos where both the visuals and the sound have been edited in real time by editing the images on your screen. It's not just any normal tiktok clip either, this app has taken it up a notch for there are many features included. Tiktok is a very unique app in that you get to see other people's videos. You can edit your video like the person before you, but once you've finalized the video, you can send it to Instagram for it to be played there. The app has many features such as adding music and emojis.", TikTok is taking steps to clamp down on users who promote self-harm through its app. In January 2021, TikTok removed more than 485,000 musical.ly videos for "encouraging or glorifying self-harm," "glamorizing eating disorders" and other harmful content.",

In March 2021, Linius Technologies filed a lawsuit against Musical.ly for trademark infringement. Linius Technologies claimed that the word "musical" in Musical.ly's name was too similar to their trademark, and Musical.ly had to change their name or its domain name. In June 2021, Musical.ly announced that they would no longer use the word "musical" in their name and would instead shorten it to just "Musical". Lytro Cameras also filed a lawsuit against the company in June 2021 for trademark infringement. In August 2021, Linius Technologies filed a request to have Musical.ly removed from the Google Play Store which was denied by Google on November 9, 2021 with Google stating that because musical.ly wasn't using the word "Musical" in their name (previously Musically), it could not be taken down from the app store.", Another tweet by a Twitter user referenced a news article which noted that "the pressure has risen on the popular video app TikTok. The app has been criticized due to [a] lack of clarity in its privacy policy." This particular article was published by a German news outlet and reports that "The Facebook subsidiary was recently investigated by the Hamburg Commissioner of Data Protection and Freedom of Information for possible violations of data protection laws. The company is now busy working on an improved privacy policy."",

Tiktok App's personality was designed based on the culture and practices of different countries around the world. It is a melting-pot for people, from all nationalities, racial groups, cultures and religions. The

four basic features of TikTok are: Chat (conversational chat), Chat Rooms, Voice Recording (voice message) & Sharing photos. The app uses barcodes and camera feature to paste contacts' information into the "conversation" stream for easy access. As such it gives users a visual representation that would make their communication much more real-time than other messaging apps like WhatsApp or Skype. Moreover, it also helps users to retrieve contacts they don't know by just scanning codes.", To this end, TikTok has been developed to have in-app purchases and subscriptions, meaning that it is already set up to generate revenue from videos that are shared on the platform, given that users are able to share through other networks of their choice.",

In an article published on Broadway World, it stated that "TikTok aims to help users meet people they might not have otherwise and include them in their daily lives through its short-video feature. Some of the videos can be private or public and each user has the ability to turn off sharing content with certain individuals. Users have the ability to add photos or add drawings to their videos." This article was published on Broadway World.", TikTok may be missing features such as a video editor, and its data intensive nature may make it difficult for the app to gain traction in markets where data usage is increasingly expensive. It also remains to be seen if the app can retain its popularity with teenagers.", A study published in June 2021 by researchers at University College London (UCL) revealed that TikTok's videos were found to be "gender stereotyped, objectifying, and often [showed] normalization of smoking and alcohol use" and also used hashtags in their videos related to body weight control, eating disorder recovery, sexual violence, sexuality issues and gender identity issues. The study goes on to say that children and adolescents are a primary user demographic for this app, and that the app uses "emotional manipulation" to "sustain engagement".",

TikTok has been criticized for the amount of time it takes for users to upload videos and therefore can affect their ability to generate revenue from them. These issues have been compounded by the company's lack of oversight and a lack of in-app review or moderation tools available for its users. As of May 2021, the app has been criticized for the amount of inappropriate and illegal content shared on its platform and the ease with which users can access this content. TikTok is not monitored by human moderators as Youtube is but relies entirely on machine learning technology to find inappropriate content that violates its terms of service. It has been reported that this method provides overbroad or inappropriate results, as well as false positives.",

On December 19, 2021, TikTok introduced a feature called "Profile Verification" in India. The feature was made to allow users to verify their identity on the app by sending their government-issued identification card number to TikTok. The company announced that the feature would show up as an option in the parental control settings of people who had verified their identities. The feature was only available for people aged 18 and over and did not verify names or email addresses. In addition, the company said it would not use the information for any other purpose other than verifying age on the platform. In an interview with NDTV, Jigar Shah, CEO and founder of TikTok said that they had not created profiles in other countries and that verification was only meant to stop people from registering without giving any information. On August 2, 2021, TikTok stopped offering the feature stating "We have received feedback from a majority of our users who do not wish to share their ID card numbers. We will continue to develop other features that can match identities using information such as phone number or email address." The company said it would continue to consider adding the feature in the future with new technology.",

Musical.ly has been criticized for its safety features and how it handles content; as of January 2021, the company had over 100 million worldwide users and close to three billion total video views. Safety and privacy concerns have also been raised about a number of high profile incidents within its community, including bullying, harassment, suicidal behavior, school shootings and self-harm. Teenagers and younger audiences who join Musical.ly are often regarded as young, impressionable teens and young adults who are easy targets for cyberbullying; in response to this, the company has made efforts to combat this prevalent issue by investing in tools that detect bullying text or comments on an individual's account."
