textSCAN™ - pause and control scrolling text (DAB & FM)

Setting and selecting presets

Store up to 30 DAB and FM radio stations in a combined list for easy access.

To set a preset

Tune to the station you want to store. Press the Preset button and use the +/- buttons to select the Preset number you wish to save the station to. Now **hold down** the Select button **or** the Preset button for 3 seconds until the display changes to a confirmation message, e.g., 'Preset 1 Saved'.

To select a preset

Playing a CD

CHRONOS CD can play ordinary audio CDs, CD-R and CD-RW discs. It can also playback MP3 or WMA files from a CD.

Open/Close

Open/Close

Pause/play/stop

During MP3/WMA playback the screen displays track number, total number of tracks and track time on the display top line and scrolling file information (ID3/ASF text), where available, for File name, Album, Artist and Title on the bottom line (max 32 characters each).

Setting alarms

How to set an alarm

1. Press the **Alarm** button then select Alarm 1, 2, 3 or 4 with +/- and **Select**. The time, repeat days and on/off status are displayed on the top line.

2. Select 'Set alarm' and choose 'On' to turn the alarm on.

Tip

An alarm you've already set can be turned off by selecting 'Set Alarm > Off'. You can reactivate an alarm by selecting 'On'.

3. Select 'Set time' to set the time you want the alarm to sound. Adjust the hours using +/- and press **Select** to confirm, then adjust the minutes and press **Select** to confirm.

4. Select 'Set days'. Choose when you want the alarm to repeat (press +/- to browse through the options and press **Select** to confirm):

Daily	Every day
Weekday	Monday to Friday, every week
Weekend	Every weekend
Saturday	Every Saturday
Sunday	Every Sunday
Once	The alarm will sound at the time you have selected and not repeat

GB

5. Select 'Set Mode' to choose the type of alarm you want: Radio, Tone or CD.
6. If you select 'Radio', now choose a radio station for the alarm from the preset list using +/- to choose and **Select** to confirm. If you select 'Last used' the alarm will tune to the DAB or FM station you most recently listened to. (To learn how to set presets, see page 6.)
7. Select 'Set volume' and adjust the volume level for the alarm from 1 (very quiet) to 16 (very loud) using the +/- buttons and **Select** to confirm.

That's it! You can see which alarms are currently switched on by looking at the numbered alarm clock icons on the screen, in either active or standby mode.

For example:

Alarm 1 is
currently set

You can change alarm settings by pressing **Alarm** when Chronos CD is switched on or in standby mode, selecting the alarm number and changing settings as described above.

To stop an alarm

When an alarm is sounding press either the **Alarm** or **Standby** button to stop the alarm sounding. Pressing **Standby** when a radio alarm is sounding will also switch the unit off.

To snooze an alarm

When an alarm is sounding press the **Snooze** button to silence the alarm for nine minutes (the default snooze time).

Changing the alarm snooze time

You can change how long the alarm snoozes for when you press the **Snooze** button during a sounding alarm. Press **Alarm** and scroll to 'Snooze time'. Adjust the snooze time between 5 and 60 minutes.

Using the sleep timer

The sleep timer switches your radio into standby after a number of minutes.

DAB only options

Station Order

- | | |
|----------------|--|
| Alphanumeric | Lists all stations in alphanumeric order. |
| Active station | Lists active stations first on the station list. |
| Multiplex | Lists stations in groups according to their multiplex. |

GB

Autotune

Scans all DAB frequencies for stations and adds any new ones to the station list. To stop an Autotune press Select.

DRC value

DRC (Dynamic Range Control) value makes the quieter sounds in a DAB broadcast easier to hear at low volume or in a noisy environment. Check with the broadcasters to find out if they use DRC.

- | | |
|----------|--|
| DRC off | Any DRC level broadcast will be ignored. |
| DRC half | DRC level is set to half that sent with the broadcast. |
| DRC full | Applies the DRC level as sent with the broadcast. |

Manual tune

Shows DAB signal level which can help you find the best position for your radio.

1. Use the +/- buttons to scroll through different channels and push Select to choose one (UK stations are in the range 11B to 12D). You see a signal level display. The empty block indicates the minimum required level for reception and the filled blocks indicate the current level.
2. Move your aerial/unit and to try to raise the current level to the empty block or beyond. Once you have a good signal the display will show the multiplex name and add the stations to the station list.
3. Push the Menu button to exit or +/- and Select buttons to change channel.

FM only options

FM stereo mode

Choose from Stereo or Mono - mono may improve audio clarity where stereo signals are weak.

CD only options

CD play order

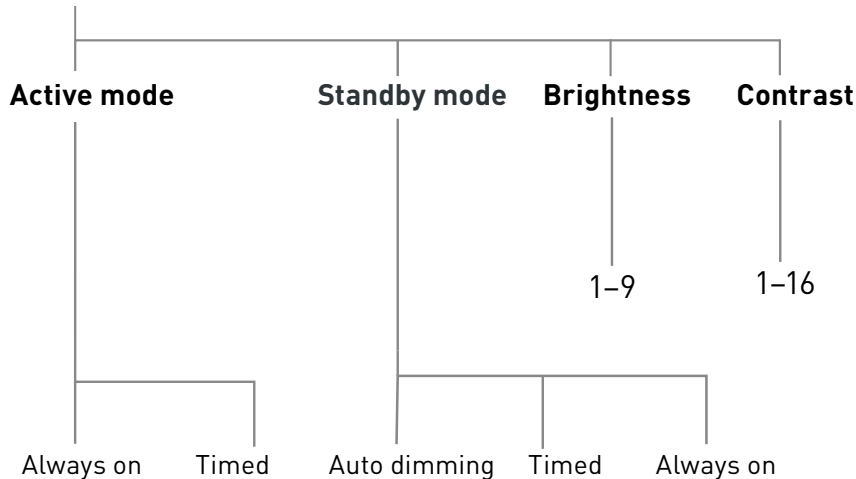

Choose the order CD tracks are played in. Choose from Normal, Repeat one (repeats current track), Repeat folder (tracks in current folder (MP3/WMA) or all (normal CD)), Repeat all (whole CD) or Random.

General options

Display

Press the Menu button and press Select to access the Display menu. You can customise the display settings for when the unit is switched on (active) and in standby. The diagram below shows the available options.

Display

Active mode	Backlight settings that apply when the unit is switched on.
Standby mode	Backlight settings that apply when the unit is in Standby mode.
Timed	The display backlight brightens when a button is pressed then switches off after no button has been pressed for 7 seconds.
Always on	The display is constantly on as defined by your Brightness and Contrast settings.
Auto dimming	The display backlight alters automatically depending on the ambient light conditions.
Brightness	Adjust between 1 (dimpest) and 9 (brightest).
Contrast	Adjust between 1 (low) and 16 (high).

Clock

Clock set

Manually set the time and date if required. If you have good DAB reception these will automatically be updated from the DAB radio signal.

12/24 Hour set

Choose 12 hour or 24 hour clock display.

Audio

Set the Treble and Bass levels.

Hints and Tips

(<</>>) Secondary DAB services

Secondary services accompany some stations, providing extra information or alternative content and may only be broadcast at certain times. If a station has secondary services available, the station shows '>>' next to its name in the station list and the secondary service appears next to the station in the list. A secondary service has a '<<' before its name in the station list.

(?) Inactive or unavailable DAB stations

Inactive or unavailable stations are those which appear on the station list but are not currently available. Inactive stations have a '?' before their name on the station list. If you select a station which has this symbol, your radio tries to tune in or returns to the previous station.

Display says 'No stations available'

Check that your aerial is fully extended. Use Autotune to search for stations. Try adjusting your aerial or radio position.

The screen is very dark

Check the Display settings. Check that the light sensor is not obstructed if Auto dimming is selected.

Resetting your radio

Resetting your radio removes all presets, stored stations and favourite station settings and resets all options to defaults. To reset:

1. Press and hold the Menu button for three seconds.
2. Press Select to confirm the reset or press no buttons to cancel the reset.
